

A  Sempra Energy utility[®]

RESTAURANT REFRESH PROGRAM

ENERGY EFFICIENCY PROGRAM

Restaurant Refresh makes it easy for eligible SoCalGas[®] customers to identify ways to reduce operating costs and improve facility performance. Participants receive no-cost, customized recommendations for energy and water-saving upgrades. Those who upgrade receive incentives and support with rebate and financing applications.

Savings are achieved in three easy steps:

- 1. Assess:** Participate in a no-cost energy and water audit to identify ways to reduce utility costs.
- 2. Upgrade:** Receive a detailed audit report summarizing actions you can take to improve performance and reduce costs.
- 3. Save:** Restaurant Refresh provides enhanced cash rebates and incentives when you upgrade to efficient equipment.

BENEFITS

- **Savings:** A typical Restaurant Refresh is projected to save 15% on energy usage, which can result in significant utility bill savings.*
- **Assistance:** Our dedicated team will assist from start-to-finish so you can focus on your business.
- **Resources:** We will give you a toolkit to help you save energy in the restaurant. Resources to market your energy-smart choices to customers are included.

*Actual savings may vary and are based on program projections. Savings will depend on various factors, including geographic location, weather conditions, equipment installed, usage rates, etc.

Time for a refresh? We can help.

CALL TO GET STARTED

Participating is easy!

To get started, contact Frontier Energy, the Restaurant Refresh program implementer:

restaurant@frontierenergy.com

Frontier Energy, Inc. is a SoCalGas authorized contractor responsible for administering this program through March 31, 2020.

This program is funded by California utility customer and administered by Southern California Gas Company (SoCalGas) under the auspices of the California Public Utilities Commission, through a contract awarded to Frontier Energy, Inc. Program funds, including any funds utilized for rebates or incentives, will be allocated at a first-come, first-served basis until such funds are no longer available. This program may be modified or terminated without prior notice. The selection, purchase, and ownership of goods and/or services are the sole responsibility of the customer. **SoCalGas makes no warranty, whether express or implied, including the warranty, merchantability or fitness for a particular purpose, of goods or services.** California customers who choose to participate in this program are not obligated to purchase any additional services offered.

ENHANCED GAS REBATES

To help lower the cost of equipment and achieve greater savings, Restaurant Refresh offers enhanced rebates that are higher than single-measure rebates.

To receive comprehensive natural gas rebate amounts, participants must complete a minimum of three measures. At least two of these must be natural gas efficiency upgrades.

Gas Equipment	Rebate/Unit
Commercial Ovens	\$750 - \$3,000 / oven
Commercial Steamer	\$2,750 / cavity
Commercial Fryer	\$1,000 / vat
Dishwashers	\$615 - \$775 / unit
Demand Control Kitchen Ventilation System	\$716 / HP
Commercial Griddle	\$150 / ft.
Low-Flow Pre-Rinse Spray Valves	\$54 / sprayer
Storage Water Heaters	\$1.00 - \$5.00 / MBtuh
Instantaneous/Tankless Water Heaters	\$1.00 - \$4.00 / MBtuh
Commercial Boiler	\$3.50 / MBtuh
Tank Insulation	\$3.00 / sq. ft.
Pipe Insulation	\$3.00 / ft.

SUPPORT FOR ELECTRIC AND WATER REBATES

Restaurant Refresh offers support on electric and water rebate applications. Eligible items include, but are not limited to:

- Electric: Lighting, refrigeration auto-closers, demand-controlled ventilation, etc.
- Water: Air cooled ice machines, connectionless food steamers, toilets and urinals

Participants can receive up to \$1.75 per 1,000 gallons of water savings (amounts vary; offered through partner water agencies).

ADDING UP THE SAVINGS

Participants who receive natural gas rebates will also be eligible for an additional \$1.50/therm gas incentive for normalized one-year gas savings.

Incentives are calculated one year following installation, and are based on the amount of natural gas that your project saves. Total rebate and incentive value is capped at 50% of the total project cost.
